joeladewole3@gmail.com

I am a web developer with 7+ years of experience in full-stack web technologies like JavaScript(React), Python(Flask), HTML, CSS, Git, Firebase. Recently, I have been working remotely as a contractor for various companies worldwide. And I specialize in building single-page applications (SPAs) and enjoy transforming beautiful designs into smoothly-working products used by many people. And also, writing technical content for blog platforms. I am currently learning Web3 and Typescript.

I am open to full-time or freelance jobs as a front-end web developer, full-stack web developer or technical writer.
